

Cerro E M S

HEALTH AND SAFETY AND ENVIRONMENT POLICY STATEMENT

The purpose of this top level Statement of Intent is to meet the scope *"The manufacture and assembly of stamped and machined components in brass, aluminium and other alloys. The manufacture of a propriety range of drain, sewer and chimney cleaning and testing equipment, associated tools and accessories. The extrusion of polypropylene and polyvinyl chloride material to customers' specifications"*.

The Management Team and all employees at Cerro EMS are committed to protecting the environment, continually improving its Health and Safety and Environmental Management Systems, and performance through a process of setting and meeting objectives and targets, in order to improve the working environment and reduce the risk of accidents, including prevention of injury and ill health. Cerro EMS integrates consideration of environmental concerns and impacts into all of its decision making and activities and promotes environmental awareness among employees and encourages them to work in an environmentally responsible manner.

Our statement of general policy is

- To provide adequate control of the health and safety risks arising from our work activities;
- To consult with our employees on matters affecting their health and safety;
- To provide and maintain safe plant and equipment;
- To ensure safe handling and use of substances and prevention of pollution;
- To train, educate and inform our employees;
- To ensure all employees are competent to do their tasks, and to give them adequate training;
- To prevent accidents and cases of work-related ill health;
- To maintain safe and healthy working conditions
- To meet all Compliance obligations, Legislation and Other Requirements
- To reduce waste through re-use and recycling and by purchasing recycled, recyclable or re-furnished products and materials where these alternatives are available, economical and suitable,
- To promote efficient use of materials and resources throughout our facility including water, electricity, raw materials and other resources, particularly those that are non-renewable,
- To avoid unnecessary use of hazardous materials and products, seek substitutions when feasible, and take all reasonable steps to protect human health and the environment when such materials must be used, stored and disposed of,
- To communicate our environmental commitment to customers, sub-contractors and the public and encourage them to support it, and
- To review and revise this policy as necessary at regular intervals
